Mattress Setup:

System comes complete.
 Place directly on an appropriate size bed frame.

Cleaning Protocol:

- (1) Cover may be wiped down with a mild anti-bacterial cleaning solution.
- (2) All other components may be wiped down with a mild anti-bacterial cleaning solution.

These instructions are intended only as general guidelines. Follow your facilities standard protocol for cleaning and disinfecting medical equipment.

Safety Precautions:

The use of bed frame side rails in conjunction with any FUSION XC mattress system should be determined based upon facility protocol, applicable laws and regulations, and individual user safety considerations.

Bed frame side rail usage is not a requirement for the functional operation of any FUSION XC product, but individual safety requirements and/or facility protocol may dictate that side rails be utilized.
